Merry laughter is heard from the people as they saunter along, enjoying the cool evening air. But every now and then, as the voices are momentarily hushed, may be heard the steady, monotonous tread of men drilling. The veterans of Lee's army and battle-seared followers of the standard of Grant or Thomas, are minzied in the various companies into which the whites have formed.

A company roll would sound queerly if accompanded by a history of each man's former service. Take, for instance, Company B of the Third Ward. The captain was formerly of Pleusonton's cavalry; the lirst lieutenant belonged to Humpiney's brigade, in the army of Lee; while the second floutenant was one of Grierson's raideya. And as are the officers of are the privates; the trough soldier of the North marches side by side in the ranks with the veteran "Johnny Reb."

As the organization and equipment of these men proceed the excitement dies away in proportion. With the conclusions of disciplined strength comes a feeling of security, and out of this grows a better tone of temper and mind. This not only among the whites, but the black as well. Two weeks ago either side in case of an alarm would have flown to arms and precipitated trouble. The whites rarely appeared on the street late at night unless in little groups, beauly armed with revolvers and dreading a collision. THE WORKING OF POLAND'S LAW An English religious paper published sexual derangement." It is the women that crowd the engranes of Christendem, and conversed usually occurs at purerry.

A large class of women act very foolishly toward a favorite preacher, Read the story of love letters received by Mr. Receptor, and be assured that his is not an exceptional case. Every cleryman under middle life, especially if unmarried, is more or less amoved by the attentions of the females of his flock, and this is peculiarly true of the most broas of them.

Somebody has said that women are more religious than men, but less moral. This is not always a matter of sex, but rainer of temperations. Women do not stop to reason. They take sides instinctively, and no with all their might for the side they have taken. They are as active in driving out a minister they do not like as in sustaining a favorite.
